

Camilla Rauma-Sehm

CEDR Panel Admission: 2020

Languages: English, Finnish, Swedish

Overview

I am a Finnish District Judge, Court-Annexed mediator and mediator. I also train new and more experienced mediators. To me, mediation is a modern, constructive, fast and effective way to solve conflicts. What I really like about mediation is its interdisciplinary nature; mediation is about psychology, numbers and law.

I have hundreds of mediations behind me, for instance about:

- General contractual disputes
- Claims about damages
- Conflicts between contractors
- Construction disputes
- Labour law disputes
- Condictio indebiti
- Debt restructuring disputes

My mediations proceed in a positive ambience, showing the biggest respect for the interests of the parties. As a mediator I am patient and creative, and I like thinking out of the box. I always have discussions with all the parties and separate discussions, caucus.
