Patricia Hitchcock KC

Overview

Patricia retired from civil practice after 33 years at the Bar on 6th September 2021, to focus on judicial and mediation work. She trained as a mediator with the Centre for Dispute Resolution (CEDR) in 2003 and continues to accept instructions to act as a mediator, with particular expertise in clinical negligence, mental health and catastrophic injury cases. She is in the process of joining the NHSLA Panel. Patricia also sits as a Recorder (part-time judge) in the Crown Court (crime).

Background

- After university, Patricia worked in book publishing for nine years before being called to the Bar in 1988. The change of career followed her election to lead the NUJ chapter at Hutchinson Books during a company takeover, during which period she discovered an aptitude for advocacy when called upon to support others.
- On qualifying, she trained at Devereux Chambers and then at Cloisters, where she was taken on as a tenant. Her career at the Bar began with a wide-ranging common law practice encompassing employment, discrimination, housing, personal injury and criminal injuries compensation, with a primary focus on criminal defence work.

- Patricia ‘took silk’ – was appointed Queen’s Counsel – in 2011 and was appointed to the judiciary as a Recorder in 2017. She continues to sit part-time as a Recorder in the Crown Court.
- Patricia was an early adopter of mediation, qualifying with CEDR in 2003, and has maintained an interest in mediation throughout her career. She has often appeared as an advocate at mediations, and is now consolidating her existing experience as a lead mediator.

Patricia developed a reputation in professional discipline - becoming Standing Counsel to the British Psychological Society - and clinical negligence, which took over as the centre of her long and successful career as a barrister.

For more than 20 years she represented seriously injured claimants in multi-million-pound claims in the High Court, specialising in obtaining life-changing damages for people with brain and spinal injuries, especially children and adolescents. She also conducted many claims for delayed diagnosis of cancer. This work involved analysing large quantities of complex medical records and academic research papers, working with some of the leading medical experts in the country, and on occasion cross-examining those representing the defence.

She also represented many high-profile applicants for state compensation for unjust imprisonment, tribunal claimants and defended over 100 Crown Court trials, including many at the Central Criminal Court (‘Old Bailey’).
