

## **Tania Songini**

Tania is an experienced executive and company board director, who has worked for over 25 years in the renewable energy and sustainable infrastructure sectors, including 15 years as Finance and Commercial Director at Siemens, operating in various European, African and Asian countries. More recently she has contributed to the development and oversight of ESG governance frameworks as a member of board Health Safety, Environmental and Social

committees.

Tania is a member of the board of the UK Infrastructure Bank, Guernsey Electricity and the Energy Systems Catapult and until recently of the Private Infrastructure Development Group (developing and funding sustainable infrastructure in the poorest countries of Africa and Asia).

Tania is a CEDR Accredited Commercial Mediator and a practicing Community Mediator. She has attended courses in Peace Mediation and Corporate–Community Mediation in natural resource disputes. Tania is particularly interested in mediator/dialogue facilitations in disputes involving business, government and community interests.

Tania grew up in Tanzania, Nigeria, Sudan and Italy, holds a Masters degree in Political Science (International Relations and Economics) and speaks six languages fluently.
